Öfters Freeze

Beitrag von „Messa“ vom 14. Januar 2014, 14:18

Das steht in der Konsole drinnen vor und nach dem Absturz.
Da sehe ich aber keinen Fehler. (14:08) war der Freeze.
Sound läuft dann immer weiter Bild sehe ich auch noch aber ein eingeforenes Bild.
Egal ob ich die Maus oder die Tastatur drücke es hat keine Auswirkungen.

Wie geht das mit dem verbose ?
