

Erledigt iMessage und Facetime aktivieren mit Clover und Ozmosis Rom Update Heute

Beitrag von „rubenszy“ vom 10. Dezember 2014, 21:23

@[Fr33z3r](#)

das in die DSDT einfügen und im System ist alles Built in

Code

```
1. # Fixes 'Built-in' status for Atheros Gigabit Ethernet
2. into method label _DSM parent_label GLAN remove_entry;
3. into device label GLAN insert begin
4. Method (_DSM, 4, NotSerialized)\n
5. {\n
6. Store (Package (0x0C) {\n
7. "AAPL,slot-name", "Built In",\n
8. "name", "Atheros Ethernet Controller",\n
9. "model", "Atheros AR8151 Gigabit Network Controller",\n
10. "device_type", Buffer (0x13) {"Ethernet Controller"},\n
11. "built-in", Buffer (One) {0x01},\n
12. "location", Buffer (0x02) {"1"},\n
13. }, Local0)\n
14. DTGP (Arg0, Arg1, Arg2, Arg3, RefOf (Local0))\n
15. Return (Local0)\n
16. }\n
17. end;
```

Alles anzeigen
