Windows 8.1 doesn't show up in Ozmosis GUI or in BIOS

Beitrag von „al6042“ vom 31. Januar 2015, 02:17

Sorry for the delay, I had to check some of the thread to see if they had the same issue...

In on of those Threads they mentioned to use the Terminal command I already posted before and than use the following command too:

Code

1. `sudo nvram 1F8E0C02-58A9-4E34-AE22-2B63745FA101:AcpiLoaderMode=0x53`
