Windows 8.1 doesn't show up in Ozmosis GUI or in BIOS

Beitrag von „neoyoli“ vom 1. Februar 2015, 21:12

I put the file into /EFI/OZ on the EFI Partition, and the Windows disk still doesn't show up in Ozmosis GUI, in fact now it boots OS X automatically (after the OS X drive icon shows up).

Update: and I just noticed, Ozmosis GUI always comes up at boot, even without pressing alt/option.
