Die De-Installation geht über das Nvidia Driver Manager in den System Einstellungen:

Zitat

To uninstall the NVIDIA Web Driver and the NVIDIA Driver Manager, follow the steps below:

STEP 1: Open the NVIDIA Driver Manager from the System Preferences or through the menu bar item.

STEP 2: Click on the padlock icon and enter an Administrator password.

STEP 3: Click the Open Uninstaller button.

STEP 4: Click Uninstall and then Continue Uninstallation on the Warning screen: The Warning screen lets you know that you will need to restart your system once the installation process is complete.

STEP 5: Re-enter an Administrator password and click OK. Once the NVIDIA Web Driver and NVIDIA Driver Manager have been removed from the system, click Restart.
