HP proBook G2 / intle i7 / 16GB RAM / error

Beitrag von „crusadegt“ vom 4. August 2015, 22:37

Could you please tell us how you creat the usb boot stick?

Copy the FakeSMC.kext to Clover>kext>10.XX

by the way please boot from your usb device with the following boot flag = kext-dev-mode=1 -

v

And when the screen depends please send a picture
