

# SysInfo

Beitrag von „apatchenpub“ vom 4. Oktober 2015, 23:20

The screenshot displays the SysInfo application interface, which provides a detailed overview of system hardware. It is organized into several sections:

- System Overview:** A summary table listing components like CPU, RAM, Storage, and Network.
- System Details:** A more granular table listing specific hardware components such as:
  - Chipsets:** Intel Xeon Phi 7200, Intel Xeon Phi 7200, Intel Xeon Phi 7200.
  - Memory:** Intel Xeon Phi 7200, Intel Xeon Phi 7200.
  - Storage:** Intel Xeon Phi 7200, Intel Xeon Phi 7200.
  - Network:** Intel Xeon Phi 7200, Intel Xeon Phi 7200.
  - Other:** Intel Xeon Phi 7200, Intel Xeon Phi 7200.
- System Summary:** A table providing a high-level overview of the system's configuration.
- System Information:** A table listing system-level details like BIOS, OS, and System.

The interface uses a clean, modern design with a light gray background and clear typography. The data is presented in a structured, tabular format, making it easy to read and compare hardware specifications.
