## **HD4600 bei Gigabyte Z97m-D3H**

**Beitrag von „mosconi“ vom 13. Oktober 2015, 11:31**

Hi,

I have the same CPU and same motherboard GAZ97M D3H.

The IGFX HD4600 is working OOB under ELCAP and Previously under Yosemite.

I can send you my F6 rom with Ozmosis if can help....

The F7 rom of the repository doesn't work for me too....
