Erledigt Z77 DS3H Audio

Beitrag von „veranyon" vom 10. Dezember 2015, 11:20

had put dsdt.aml into disk0.../efi/...
As I had understood, I must put such files only to zero block devices (disk0 only). not to device.
where are OS', but to zero block devices only - disk0s1/efi/...
problem had decided.
hd7970 issue had stayed. there are no transparency effects in OS X 10.[10,11]. dock panel etc.
