

## **Erledigt** OZ 1669M and HD7970

**Beitrag von „veranyon“ vom 10. Dezember 2015, 13:02**

Solved.

Go to accessibility > Display > unchecking "Reduce Transparency" one.

In total:

1. `sudo nvram 1F8E0C02-58A9-4E34-AE22-2B63745FA101:AtiFramebuffer="Hamachi"`
2. reboot
3. Go to accessibility > Display > unchecking "Reduce Transparency" one.
