Erledigt [English] GA-Z97-HD3 with HD4600 can not boot

Beitrag von „thadeth" vom 17. Januar 2016, 13:35

Thank you people for your help!

I tried the EFI folder from rubenszy but it stll gets stucked at Missing Bluetooth Controller Transport

USB plugged into USB 2 port. Changed ssd with normal HDD to test if ssd was making a problem.
Also I forgot to say that I use VGA port LCD monitor because I do not have one with HDMI right now. Is that a problem ?
Thank you again 🙂
