Suche Hackbook El Capitan bis 300 EUR

Beitrag von „burzlbaum“ vom 20. Januar 2016, 11:21

Danke Denis,

wenn ich ohne BrcmPatch... starte bekomme ich:

Ohne BrcmFirmware...

```
com.apple.AppleFSCompressionTypeZlib load start
com.apple.AppleFSCompressionTypeDataless load start
000001.675115 XHC014000000: AppleUSBXHCI::RaiseOnPowerStateTo: host controller was not halted, USBStatus 0x00000000

```

Habe kaum Ahnung von der Auswertung solcher Fehlermeldungen. Aber immer scheint es ein Problem mit dem IO80211 zu geben. Hatte da ja auch für die alte Karte drin rum editiert. Aber die editierte IO80211Family mit einer normalen wieder ausgetauscht.

Komisch :confused:
