Erledigt **Z77P-D3 Sound card and Network card Problem**

Beitrag von „al6042" vom 10. Februar 2016, 08:08

You should stick to your original thread [Gigabyte Rev1.1 Z77P-D3 encounter problems](#).
If you open up another one with the same issue, everybody will be confused where to enter their answer and won't be able to follow the attempts to help you.
This is the reason why I closed this thread.
Please follow the original one.
