## **DSDT fix Z87MX-D3H (OZ167X)**

**Beitrag von „nikoZ“ vom 27. Februar 2016, 13:20**

Yay! It's says "Disk not ejected properly" at wake but it definitely works!

Wake from sleep USB plugged: **WORKS!**

Shutdown with USB plugged: **WORKS!**

Frontal / Backward USB: **WORKS!**

Internal USB 2.0: NOT INTERESTED!

Sound after wake from sleep: solved by proper edit CodecCommander.kext or Multibeast 6.1.0 restore.

[@Huberer](#) Thanks for helping me.
