DSDT for B85-HD3 Board

Beitrag von „dkbro“ vom 14. März 2016, 19:36

Hello [rubenszy](#) or maybe someone else can help! and could you suggest such a thing:
a profile is defined like the sound, but the HDMI settings there are no device? I need
something else with this dsdt or kext to make any special needs?  
P.S ALC892 thanks in advance!
