Suche: AppleHDA (v274.7) gepacht für RealtecALC1150 - GA-Z97X-UD3H

Beitrag von „nikoZ“ vom 29. März 2016, 14:08

All good, noo need for edits, it was an error on my defaults.plist. Something about low power state imported from codec commander before I get to use AppleALC.
Solved. Thanks.
