ok, i've had the same problem with the same board (z97n g5).
after i've flashed your ozmosis version, i was able to start the installation process and
it'll hopefully finished in some minutes

so, now i let your version installed, or do i have to re-flash it with the latest version
from here Ozmosis Mod für das GA-Z97N-Gaming 5 ?

No problem. Always for help!!!
