Ozmosis BIOS für Asus P8Z68-V Pro Rev 1.01

Beitrag von „al6042“ vom 5. April 2016, 17:35

Hi jagun,

the Ozmosis package in this thread is very old and will not work with the current version of OSX 10.11.x.

Please send a request for a newer Ozmosis mod in the [OZMOSIS REQUEST THREAD / Ozmosis Anfragen Thema](#)
