

Anleitung: HP 8470p / El Capitan - nahezu 100% perfekt!

Beitrag von „al6042“ vom 10. April 2016, 15:43

Mit der aktuellen Version 1.3.1 von Maciasl komme ich auf folgende Ausgabe beim Kompilieren:

Line	Code	Message
145	3144	Method Local is set but never used (Local1)
228	3144	Method Local is set but never used (Local0)
1106	3144	Method Local is set but never used (Local6)
3388	3144	Method Local is set but never used (Local2)
3617	3130	Result is not used, possible operator timeout will be missed
4018	3115	Not all control paths return a value (VGDD)
4028	3130	Result is not used, possible operator timeout will be missed
4400	3144	Method Local is set but never used (Local0)
4427	3130	Result is not used, possible operator timeout will be missed
4434	3130	Result is not used, possible operator timeout will be missed
4495	3144	Method Local is set but never used (Local2)
5053	3115	Not all control paths return a value (SETP)
6731	3144	Method Local is set but never used (Local2)
6759	3144	Method Local is set but never used (Local2)
7275	3144	Method Local is set but never used (Local0)
7741	3144	Method Local is set but never used (Local0)
7796	3144	Method Local is set but never used (Local4)
7816	3144	Method Local is set but never used (Local0)
7910	3144	Method Local is set but never used (Local0)
7984	3144	Method Local is set but never used (Local2)

0 Errors, 26 Warnings, 62 Remarks, 71 Optimizations

Warnungen sind nicht tragisch... Fehler würden das Kompilieren direkt verhindern.
