IDT 92HD81B1X on-the-fly Patch mit Clover [AppleALC]

Beitrag von „Sascha_77“ vom 28. August 2016, 12:33

Yes -alcbeta is set the whole time. That's the strange thing. I will reboot a few times now and look what happened.

Ok here the result:

Boot-Time

- 1) Ok
- 2) KP
- 3) OK
- 4) OK
- 5) OK

Seems to be random.
