

Erledigt

Sierra und T430s - Zwei Freunde die sich erst kennenlernen müssen!

Beitrag von „death90“ vom 9. Dezember 2016, 23:57

Wlan/Bluetooth hatte ich testweise schon deaktiviert und leider keinen Unterschied feststellen können.

DSDT hatte ich auch weggelassen, aber dann kam ich nicht mehr in die Installationsroutine!

Hier noch das letzte Bild beim Boot-Versuch:

Bootversuch nach der Installation vom USB-Stick, um wieder in die Installationsroutine zu kommen:

Bootversuch nach der Installation von der internen SSD, mithilfe des USB-Sticks(Bootloader):

/EDIT:

So sieht die Ordner-Struktur im EFI/CLOVER aus... ich habe 2 Kexte für die Atheros AR.. Wlan-Karte gelöscht...

So sieht die config.plist aus ... was muss da gelöscht / geändert werden ?
