

VIA VT2020/2021 (Z77X-D3H) mit DSDT Patch

Beitrag von „SonicBSV“ vom 15. Januar 2017, 17:23

MacPeet, for me autodetect headphones / green line out work fine on my GA-z77x-D3H Rev.1.1

McRudolfo, Yes, the microphone sensitivity is low but no noise....I spent a lot of time solving this problem and all to no avail

This codec TRASH 😄 Work fine only VoodooHDA ,don't AppleHDA

Look my patched VoodooHDA (my post up) there are almost no problems in ports and the microphone sensitivity is good

I think what i made in AppleHDA best among the other solutions which is in the network,but you could argue it's your right 😄
