Difficulties following installation on modbios ozmosis Z77-D3H

Beitrag von „supergg12“ vom 19. Januar 2017, 15:00

Hallo,

Since the installation that went without worry, I observed:

- no sound,
- no sleep,
- no extinction.
- 2 USB3 ports are recognized on 4.

Could you help me please?

Thank you very much in advance.
