

AMD RX 490 und RX 480

Beitrag von „sev7en“ vom 4. Februar 2017, 16:35

Dears,
thanks to all! I will try with that suggests.

Cheers,

[edit:](#)

I applied the suggest above and it is changes, but still doesn't work.

Here now what I get after running the new version of the script:

And it is what I read in the **System Properties**:

Zitat

Type: GPU

Bus: PCIe

PCIe Lane Width: x4

Vendor: ATI (0x1002)

Device ID: 0x67df

Revision ID: 0x00c7

Kernel Extension Info: No Kext Loaded
