## VoodooSDHC ist zurück

Beitrag von „kaim“ vom 17. Februar 2017, 20:13

[Zitat von Thogg Niatiz](#)

@'kaim

I'd really appreciate if you can contribute to a testing device...

Please open another thread in "Nach der Installation" - "Kexte / Bootloader / DSDT" where we can talk about it.

Greetings to Israel

Regarding contribution even as it is PCIe thread I could, but you have to point me. If any one joins it would be even better =)

Regarding the thread... I will, but a bit later. Will post here. Have a busy period right now and am sorry to be out for such a while.
