## OZMOSIS REQUEST THREAD / Ozmosis Anfragen [1. Beitrag beachten!]

Beitrag von „Corno77“ vom 7. April 2017, 08:19

Sorry but I do not speak German.

I would like to know if is possible to create a BIOS with Ozmosis for the Fujitsu PRIMERGY TX100 S3p server.

Is quite old but maybe can be a good OSX server.

My config. has an nVidia GT 730 4gb DDR3, and an Asus Xonar DGX audio board.

Thanks in advance for any help you can give me.

Filippo
