Need Help for Ozmosis Z97X-UD3H-BK rev1.2 F8

Beitrag von „arminmacx“ vom 18. Mai 2017, 23:30

Ok thanks for al6042 help I just get into bios because after flashing it use intel gpu. I change my bios setting and use my pcie gpu but now my USB load but at the end is goes black screen and nothing happens .

btw al6047 I can't reply to that thread anymore because there isn't any reply button over there for me anymore
