## **Need Help for Ozmosis Z97X-UD3H-BK rev1.2 F8**

**Beitrag von „arminmacx“ vom 18. Mai 2017, 23:55**

ok now I removed my external gpu and only use intel gpu but still my vanilla USB hanged at middle of loading and I see its hanged at "considerrebuildofPrelinkedKernel org.netkas.driver.fakesmc triggered rebuild"
