## Cannot get ALC1150 audio with Ozmosis

Beitrag von „al6042“ vom 7. Juni 2017, 23:38

Then where's your DSDT?

How should we be able to help if you don't show us what you've already got? 😊

Also make sure that you have the [Lilu.kext](#) in your /EFI/Oz/Darwin/Extensions/Common folder, since AppleALC-OZM needs that since version 1.1.0
