El Capitan auf dem T61? Ja aber sicher doch!

Beitrag von „mfratczak“ vom 19. Juni 2017, 22:03

I'm stuck.

I have T61,
Mobile dual-core Intel Core 2 Duo T7300, 2000 MHz (10 x 200)
4gb Ram
Quadro NVS 140M

I fight with clover 3days (read everythink on forum). I want install El Capitan, and every time i have problem with Graphics or clover is complete crashing before even start 🤔

can you help me?

I don't know how generate dsdt, and good config.plist 🤔
