Edit DSDT table, nvidia GPU (MXM) DELL XPS one A2010

Beitrag von „al6042“ vom 23. Juni 2017, 18:46

Hi and welcome the forum... 😊

Are we talking about getting an DSDT fixed to install macOS on that machine?

I don't even know if the hackintosh related patches, even to enter an EDID, will be of any use with any Windows version.
