

# Clover Configurator immer aktuell

Beitrag von „al6042“ vom 12. August 2017, 18:02

Und hier die brandneue Version 4.47.0 in Classic und Vibrant Variante... 😊

Geändert wurde folgendes:

## 4.47.0

- Replaced Haswell-E key to KernellvyXCPM in Kernel And Kext Patches section (Clover Rev 4154+)
- Added AppleIntelCPUPM key in Kernel And Kext Patches section (Clover Rev 4152+)
- Reworked SMBIOS section, added support for Board Serial Number (13 – 17 pattern), added new SMBIOS
- Reworked RtVariables section
