Erledigt mac os high sierra and Ozmosis

Beitrag von „al6042" vom 22. August 2017, 08:00

We consider doing that while High Sierra is in the Beta phase, but since there so much developmental changes from version to version, it doesn't make any sense to provide an HSReady-Ozmosis on the broader scale, which then has to be adjusted any other week.

It would be great if you could add your hardware details either in your signature or your profile, within the section "About me".
Thanks
