macOS sierra in Thinkpad E560 help needed

Beitrag von „al6042“ vom 5. September 2017, 13:34

Before I can do that, you should add your hardware details either in your signature or your profile, within the section "About me".

I also would like to take a look at your IOREG-Data...

Please download the [IORegistryExplorer](#), open it and save the results with "File"->"Save as" as an IOREG-file...

Compress it and post it as an attachment.
