macOS sierra in Thinkpad E560 help needed

Beitrag von „Web Developer“ vom 5. September 2017, 16:40

The battery problem not solved with "Use dark menu bar and Dock"  and it show me the notification "Low Battery your Mac will sleep soon unless plugged into a power outlet." but its not sleeping after the message appear

and sorry for missing the attachments, now in the attachments 

UPDATE:

Another problem that I have a dual boot, macOS and Windows 10

in macOS the battery level is 61%

and if i reboot and entered Windows 10, I found the battery level is 55%

Is that normal?
