Hilfe bei der Hardware... Sind meine Teile kompatibel?

Beitrag von „derHackfan“ vom 16. Oktober 2017, 22:15

So nebenbei habe ich mal versucht Ozmosis in das rom vom ASRock H87 Pro4 zu quetschen, da geht aber (leider) gar nüscht ausser ein --compressDXE, bleibt also nur Clover Bootloader übrig ...

```
uwnigge ~ - bash -- 80x37
Compressing CORE_DXE to save space...
