

Erledigt HP Pavilion dv6-6109sg

Beitrag von „Grimford“ vom 18. Oktober 2012, 20:28

The screenshot shows the 'System Info' window with the 'Devices' tab selected. The window displays a table of hardware components. Two devices are listed with green checkmarks in the first column, indicating they are recognized or working. The first device is a NEC Corporation uPD720200 USB 3.0 Host Controller, and the second is an ATI Technologies Whistler XT [AMD Radeon HD 6700M Series] display controller.

	Ven ID	Vendor	Dev ID	Device	Class	Subclass
✓	1033	NEC Corporation	0194	uPD720200 USB 3.0 Host Controller	Serial bus controller	USB Controller
✓	1002	ATI Technologie...	6740	Whistler XT [AMD Radeon HD 6700M Series]	Display controller	VGA compatible ...
