

# Clover Bootloader aktuelle und ältere Versionen

Beitrag von „al6042“ vom 20. Oktober 2017, 20:18

Und in nicht mal 12 Stunden kam die nächste Version nach...

Anbei die Version r4259 mit folgenden Fixes:

- [r4259] fix Intel GFX auto-detection for HD+ resolution of ivy bridge laptop
- [r4258] fixed DBG\_RT
- [r4257] fixed bugs notices by PMheart
- [r4256] Improve XCPM case conditions
- [r4255] Corrected UniSysVers length from OSVersion
- [r4254] fix Intel GFX auto-detection for ivy bridge
- [r4253] Fixed potential memory issue that affects archCpuType
- [r4252] improve kernel XCPM patch, by PMheart
- [r4251] Merge all XCPM patches into one setting
- [r4250] kernel XCPM patch for unsupported CPUs will be conditional
- [r4249] menu line separator will not be clickable flag WITHKEXTS kept through submenu
- [r4248] fix OSVersion if not found, by cecekpawon
- [r4247] Make F3 show entries hidden via GUI->HIDE. Sync edk2 svn r25480.
- [r4246] check if only card is not Intel
- [r4245] update csr info
