Hilfe bei Install: X299 | i7-7820X | GTX1080 -> Sierra 10.12.

Beitrag von „DanyH83“ vom 24. Oktober 2017, 16:04

thanks for your help, I'll use the lan and my Duet 2 for the audio for now.
There is a method to control Temperature of CPU and GPU?
SmcFanControl doesn't work.
