## iTunes Backup nicht möglich

Beitrag von „Kakwerty“ vom 30. Oktober 2017, 08:48

@ anthoynics

You are right, if the Mac without enough space ,our Mac will slow down....., to free up its space , we can delete some useless files from Mac , but this is not an exact method, Because some of the data can not be erased completely ,

There is a tutorial that can help you : <https://www.mobiledic.com/ios-...backup-extractor-mac.html>
