

Anleitung: High Sierra auf HP Elitebook 8460p mit Intel Core i7-2620M und ATI HD 6470M

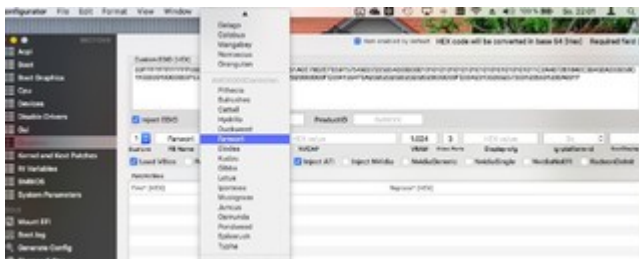

Beitrag von „anonymous_writer“ vom 19. November 2017, 22:02

And whats happen if you use my EDID Settings?

Code

1. 00FFFFFFFFFFFF000610F29C000000001A150104951A0E7802EF0597575492272250540000000101010

Also please test different FB Name from AMD6000Controller.

Second, I meant this to check if the graphics are working.
