So I returned the original BIOS and unfortunately there is no option to change the CPU settings .. :-(, there is some option to install OSX, this option was at MB:

1. MSI
2. Modell: MSI H81I
3. Chipsatz: H81
4. Bios Version: A6
5. Bios Link: http://download.msi.com/bos_exe/mb/7851vA6.zip

I can ask you about your modification to Ozmosis and how to install MSI Nightblade MI.

Thank you in advance
