## Asus Z87-Plus, kein Ton und Firewireproblem

Beitrag von „CiHViRuS“ vom 14. Januar 2018, 17:12

muss mich mit tapatalk erstmal richtig befassen 😊 darf da nicht auf antworten klicken sondern auf den pfeil.

Code

```
1. ioreg -p IODeviceTree -n HDEF -r
2. +-o HDEF@1B <class IOPCIDevice, id 0x1000001f6, registered, matched, active, b$
3. {
