

Erledigt Hp 8470p Fixes!

Beitrag von „pole“ vom 15. Januar 2018, 22:59

both. 60s and start again the error, but I did not wait 10 minutes for it.

well,
dsdt or/and config is wrong ?

Edit: When I opened this Intel Power tool, the OS is immediately crashed and restarted.

Edit1: I use Hwmonitor.

Edit2: Yep,I confirmed, again crashed.
