Erledigt **Hp 8470p Fixes!**

Beitrag von „pole" vom 16. Januar 2018, 15:55

It doesn't work the patch, something I missed ?
"set audio_cloverHDMI-xxx.command/gDebug=1". What is xxx ?
I disable the Apple hda in clover when was connecting to the monitor.

https://github.com/toleda/audi...DMI/blob/master/README.md

The card reader is working I deleted one kext by accident.(HSSDBlockStorage.kext)

How/When can I upgrade to the latest Clover version?
Install in uefi and esp only? and paste the dsdt/ssdt patch, the config, and the kexts, and something to driversuefi64 ?

Attached folder with pics and cfg.
