Neue Themes / Ozmosis GUI / BootMenü / UserInterface

Beitrag von „Pelikan213“ vom 31. Januar 2018, 21:25

I downloaded Black Theme and it looks like scaled + (1st screenshot)

I don't now where could be bug

my PC Gigabyte Z77-HD3I - Intel i5 -16GB - Gigabyte GTX 760 - Ozmosis

Output video HDMI

it cant be monitor cos I checked on TV to

theme add in bios rom
