

Erledigt **Mac Pro 2009 upgrade**

Beitrag von „Roman78“ vom 7. Februar 2018, 13:57

[Zitat von igorjos](#)

8-core: Two 2.66GHz Quad-Core Intel Xeon 5500 processors upgrade to 12-core: Two 3.33GHz Quad Six-Core Intel Xeon 5680 processors
IHS removed

There i Fixed it 😁

But nice indeed. I would be scared to chop the CPU for a Mac Pro 4.1. In the 5.1 you would not need to chop it. Now some better GPU an you're ready for the next years.
