

Erledigt ozmosis und shiki

Beitrag von „kuckkuck“ vom 7. Februar 2018, 21:08

Are you visiting this page using a translator or something?

Well, first of all your hardware is very different from the one hackintoshes.com uses. We have this guide regarding Quicksync, connectorless IDs and FinalCut: [Quicksync, Virtual-Screen Abstürze und iGPU+ded. GPU mit Grafikbeschleunigung](#)

The question is: What exactly is your problem and what are you trying to fix?
