Installed dual boot > no more sound on OSX

Beitrag von „al6042“ vom 11. März 2018, 09:09

If the machine uses Ozmosis, the F11-NVRAM-Reset won't work...

Check the SATA-cables on your Z97-D3H.

The hard drive with macOS should be connected to SATA3-Port0, while the windows hard drive should be connected to any other SATA-Port.

Please refer to page 24 in your Mainboard manual for details to the SATA ports...
