Hello [@xShift](#),

There are small differences between your Asus k541u and my ASUS Zenbook UX330UAK. Please open a new thread for your laptop. I will help you in this new thread. Please enter in this thread your hardware infos from the laptop and upload yours currently used EFI folder.

Please also upload an unmodified dsdt.aml there.

Required hardware info:

- > Processor
- > Graphics solution
- > Type of trackpad

Please also add to your account yours hardware infos.

Thank you! I shell do it!

p.s.: sorry for my language ... have no German layout keyboard 😞
